EduTech's Learning Technology Grant Blended Learning PD Stipends available for LTG participating districts only

Description

This 4-hour introductory workshop will focus on developing awareness of the transformational potential of technology-rich instruction to enhance student learning in the regular classroom, while also empowering teachers to begin to use a few simple but powerful digital tools in their teaching. It is designed for classroom teachers for any grade or subject.

This workshop is for the 31 districts participating in Edutech's Learning Technology Grant. They will receive stipends in the amount of \$100 per person per workshop session. The workshop is available for up to 15 teachers per district participating in the grant.

People from other districts are welcome to attend at a cost of \$25, depending upon space. No stipends will be available to districts not participating in Edutech's LTG Grant.

Participants will be required to complete a simple 45 minute online task, prior to attending the session.

The 31 LTG participating districts will receive six free online STEM courses in year 2 (starting July 1, 2019) and six free online STEM courses in year 3 (starting July 1, 2020).

Dates (choose one only):

1. Tuesday, June 25 at Genesee Valley Educational Partnership, Le Roy
